**CENSUS**

**UNITED STATES FOREIGN TRADE**  
**SEPTEMBER 1952**

**SUMMARY REPORT**  
**FT950**

**FOR IMMEDIATE RELEASE**  
December 1, 1952

**TRADE BY COUNTRY<sup>1</sup>**

The Bureau of the Census, Department of Commerce, announced today that the increase in United States exports of domestic and foreign merchandise, including Special Category commodities, from \$1,074.3 million in August to \$1,217.3 million in September reflected increased exports to all areas, except the Dependencies of Western Europe. During the same period, the rise in general imports from \$817.1 to \$877.4 million was primarily the result of increased imports from all continents, except Asia, Africa and the area of Australia and Oceania. Exports to Western Europe increased from \$319.1 to \$429.7 million. Exports to the Latin American Republics, valued at \$256.7 million for September, remained very near the August level of \$256.3 million. Imports from Western Europe advanced from \$144.2 to \$166.5 million and imports from the Latin American Republics rose from \$278.5 to \$306.6 million. Exports of Special Category commodities advanced from \$202.5 to \$300.3 million.

**EXPORTS, EXCLUDING SPECIAL CATEGORY COMMODITIES**

From August to September, the increase in exports, excluding Special Category commodities, from \$871.8 to \$916.9 million reflected increased exports to all continents, except Asia and Africa. Exports to O.E.E.C. countries advanced from \$189.1 to \$209.2 million and exports to the Latin American Republics increased slightly from \$246.1 to \$248.6 million. Exports to North America climbed from \$344.7 million in August to \$369.3 million in September, primarily as a result of an increase in exports to Canada from \$219.9 to \$245.7 million. Meanwhile, the advance in exports to Europe from \$199.3 to \$222.1 million reflected increased exports to the United Kingdom from \$33.9 to \$50.9 million. From August to September, exports to South America increased slightly from \$136.0 to \$139.4 million. Exports to Venezuela rose from \$35.4 to \$47.7 million. However, exports to Brazil declined from \$35.4 to \$29.8 million. Exports to Australia and Oceania were valued at \$13.5 million in September as compared with a total of \$12.4 million during August. Exports to Asia declined from \$137.9 million in August to \$133.9 million in September and exports to Africa showed only a slight change from \$41.4 to \$38.7 million.

**IMPORTS**

Imports from South America rose from \$199.6 million in August to \$234.0 million in September with imports from Brazil, which increased from \$63.1 to \$88.9 million, and Chile, which increased from \$31.2 to \$36.5 million, showing the largest increases in imports from this continent. Meanwhile, imports from Europe increased from \$147.7 to \$171.2 million reflecting greater imports from the United Kingdom from \$35.3 to \$43.0 million. From August to September, the climb in imports from North America from \$273.6 to \$292.3 million reflected a rise in imports from Canada from \$183.0 to \$205.9 million. However, during the same period, imports from Asia decreased from \$143.9 to \$135.3 million reflecting lower imports from Indonesia, from \$24.7 to \$18.9 million. Imports from Africa declined from \$35.3 to \$30.3 million and imports from Australia and Oceania declined from \$17.0 to \$14.7 million.

<sup>1</sup>Country of destination detail is not reported in export statistics for Special Category commodities beginning July 1950, for security reasons. For certain areas, export totals include Special Categories, as mentioned in the text above and as shown at the beginning of the table on page 3. Export figures for other areas and countries represent total exports less exports of Special Category commodities. See January 1952 issue of Foreign Trade Statistics Notes for for further explanation and list of special Category commodities.

COVERAGE

Export statistics include, with certain exceptions, data on all shipments of merchandise to foreign countries from continental United States, Puerto Rico, and the territories of Alaska and Hawaii. They do not include shipments to the United States armed forces abroad for their own use. Import statistics include, with certain exceptions, data on imports of merchandise from foreign countries into continental United States, Puerto Rico, and the territories of Alaska and Hawaii. Neither the import nor export statistics include shipments between continental United States and its territories and possessions, or between the territories and possessions. See Foreword to Foreign Commerce and Navigation of the United States for complete statement.

None of the export or import figures has been adjusted for changes in price level.
